

ABSTRACT OF THE DISCLOSURE

A method including the steps of generating a customer record including fields for entering an estimated completion date and an actual completion date for each of a plurality of stages of a real estate transaction; providing a customer access to the customer record over a distributed computing network to facilitate the entry, by the customer, of estimated and actual completion dates for the stages of the real estate transaction; providing a real estate agent access to the customer record over the distributed computing network to facilitate the entry, by the real estate agent, of estimated and actual completion dates for the stages of the real estate transaction; and providing a transaction coordinator access to the customer record through a server based application to facilitate the entry, by the transaction coordinator, of estimated and actual completion dates for stages of the real estate transaction in appropriate fields of the customer record.
